Press Note –Global Knowledge challenge

Dr. Laxman Singh, the most educated person in the world, is organizing a press conference about the Global Knowledge Challenge. The venue is Green Apple Hotel, located on Roorkee Road, Muzaffarnagar, Uttar Pradesh, PIN 250002. The date is 10th March 2025, and the time is 1:00 PM.

The purpose of this press conference is to explain the importance of education and to promote a culture of knowledge in India. Dr. Laxman Singh has set a national record by passing the UGC NET examination in twelve different subjects and has established many milestones in the field of education. Through this press conference, Laxman Singh aims to prove that people in our country do not understand the true importance of education. To raise awareness on this subject, Dr. Laxman Singh has issued a global challenge to people worldwide in the field of knowledge, stating that no one can surpass him in humanities subjects such as history, geography, religious studies, arts, and other fields of knowledge.

It is noteworthy that in his early life, Laxman Singh was an unsuccessful student. He failed once in 4th grade, twice in 9th grade, and five times during graduation. He had to change three universities to obtain his bachelor's degree, which he finally earned with difficulty, scoring 39%. At one time, Laxman Singh's dream was just to get a bachelor's degree. Later, he completed his PhD and set a national record by passing the UGC NET exam in two different subjects. Such ups and downs in the field of education are rare.

He means to say that currently, there is no person in this world more knowledgeable than him. This is confirmed by his national record of passing the UGC NET exam in twelve subjects and passing the Jawaharlal Nehru University entrance exam thirty-three times.
